

TIMOTHY YATES HEGGEN  
 COMPASSION. COURAGE. COMMUNITY.

## HUMANITARIAN FOUNDATION

Timothy Yates Heggen died of pancreatic cancer at 18. Although young, Tim had a view and understanding of the world beyond his years. Tim believed that happiness is a product of compassion, and to be happy people and society must promote compassion through practicing love, patience, tolerance, and humility. Even during his courageous battle with cancer, Tim lived those virtues. Today those “tisms” continue to inspire his friends and family to keep paying his dream forward. His family and friends decided to continue his practice and created this foundation to help others facing life-threatening adversities. We invite you to be part of our TYH efforts.

The core purpose of the TYH Humanitarian Foundation is to continue Tim’s legacy of caring and compassion for others. The Foundation partners with various research entities, humanitarian organizations and civic groups whose own mission reflect the concept of “Team Humanity”. We know we are all part of a bigger world and must work together to make it better.

The Foundation is exclusively organized and operated for charitable and educational purposes, and operated as a federally tax-exempt nonprofit under section 501(c)(3) of the Internal Revenue Code.

## TYH GOLF CLASSIC

7 years of 'playing it forward'

Over \$25,000 raised in 2022

25 Sponsors, 124 golfers

Otter Creek Golf Club Ankeny

**PLAY IT FORWARD**

## LOCAL

We recognize that many children battle hunger and adversity on a daily basis. Our goal is to help minimize the food shortage they are facing at home by supporting local food banks and school programs that provide children with food assistance to meet their basic hunger needs.

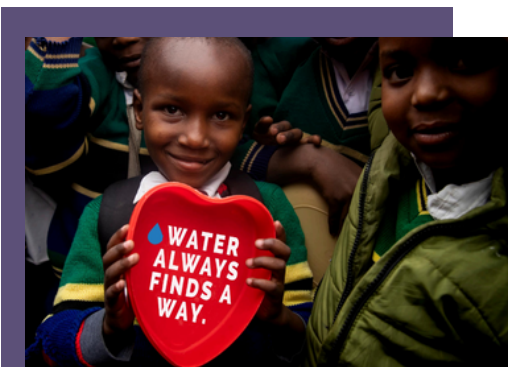

## NATIONAL - PANCREATIC CANCER RESEARCH

For 20 years, TYH has supported and donated to the Johns Hopkins' Sol Goldman Pancreatic Research Center, whose efforts focus on early detection and DNA related issues. The TYH story was showcased by Dr. Adam Duerfelt at the 100th Anniversary of the American Cancer Association.

## GLOBAL - SUKUP SAFE T HOME

Sukup-Safe T homes provide disaster relief and protection for communities world wide by building homes that provide storm shelters for up to 60 people. These homes protect against earthquakes and hurricanes by using the same galvanized metal used in grain silos. TYH supports their efforts around the world and have built 8 homes total through our efforts.

## GLOBAL - SAVE THE RAIN

TYH has partnered for 13 years with Save the Rain and Rotary International to provide Tanzanian communities with sustainable clean water for life. The TYH Foundation has helped build 4 rain collection systems at primary schools, 50 home collection systems and planted 500 Morenga trees.
